

HKTV Collaborated With Grand Ma Limited to Hold Rice Dumpling DIY Workshop

HKTV collaborated with Grand Ma Limited, a social enterprise that aims to foster understanding, care, and mutual learning between younger generations and the elderly through various intergenerational programs, to organize a rice dumpling DIY workshop, inviting 8 seniors to come to our Tseung Kwan O headquarters to make rice dumplings together with our Talents and take the opportunity to enjoy intergeneration talk.

While making the rice dumplings, HKTVerS and the seniors were able to engage in sincere talks through this causal communication channel, building mutual understanding between the two sides, strengthening the cross-generational connection and promoting community integration.
