

HKTV x Grand Ma Limited - Smartphone & Tablet Workshop

HKTV is committed to improving the quality of life through technology, allowing people of all ages to experience the convenience brought by technology. The HKTV volunteer team collaborated with Grand Ma Limited to hold a smartphone and tablet workshop, encouraging seniors to utilise smartphones and tablets, and promoting technology to seniors!

In addition to providing suggestions for the difficulties seniors face when using smartphones and tablets, the HKTV volunteer team also introduced HKTVmall Lite app and other anti-fraud tools to the seniors, ensuring everyone can shop online safely.
