

Order Packaging Recycling Service in O2O Stores

To further encourage our customers to practice sustainable lifestyles, HKTVMall provides an on-site unpacking service at some O2O stores, allowing customers to opt for unpacking their orders on-site and have the packaging boxes collected by HKTVMall for recycling.

All boxes collected in the stores will be sent back to HKTVMall's fulfilment centre, where packaging materials and other warehouse waste will be recycled.

All fulfilment centres in HKTVMall are collaborating with recyclers recognized by the Environmental Protection Department to recycle all packaging materials and other warehouse waste.
