

HKTV x The Zubin Foundation - Child Visit

HKTV Volunteer Team held a child visit and visited The Zubin Foundation's Family Center.

In addition to playing games with children from ethnic minorities, our volunteer team also prepared various short stories to share during story time. The Group also prepared some small gifts for the kids at the centre.

HKTV believes racial inclusion can be easily reached when we are willing to take the first step to understand and communicate with different parties, which can further strengthen community connections.
