

HKTV x New Life Psychiatric Rehabilitation Association - Surplus Food Collection Activity

HKTV participated in a Surplus Food Collection Activity under the ECF Food Sharing Project, organised by the New Life Psychiatric Rehabilitation Association.

We first set up food donation boxes in the TKO Headquarters to encourage our Talents to donate food, such as groceries, canned food, snacks, and more, where we successfully collected nearly 100kg of food!

Then, we visited Kwai Shing West Estate and distributed food to the service users under the ECF Food Sharing Project, directly passing warmth into the community with our actions.

This campaign reduces food waste, and most importantly, it allows us to pass our care to the people in need and contribute to the community.
