

HKTV Talent Meeting

To ensure all Talents have an all-rounded understanding of the Group's business directions, we held Talent Meetings from time to time, inviting all frontline and office Talents all over the world to attend. Our management will share the Group's achievements and the future development direction and goals, encouraging all HKTVers to keep striving with the Group!

In addition, there is a Q&A session during the Talent Meeting, allowing our Talents to ask any questions about the Company freely and get the questions answered by our management, providing a direct and effective communication platform.
