

HKTV Mentorship Program - Mentor Training Workshop

HKTV has launched a Mentorship Program that pairs experienced middle-to-senior-level Talents with juniors based on their development needs. The aim is to provide more thoughtful and personal support and guidance, creating a stable and supportive work environment.

To equip the mentor with the skillsets for coaching, the Group organised a workshop covering both theory and practice. The sessions included coaching techniques, key elements of goal-setting, empathy and active listening skills, and offering constructive feedback, helping mentors strengthen their professional capabilities.
